Profile

Experienced geospatial and surveying professional with a strong background in land surveying, GIS, civil engineering, and technical support. Proven ability to support machine control diagnostics, field troubleshooting, customer training, and solution-oriented sales support. Experienced across infrastructure, energy, telecom, and surveying environments, with a focus on accuracy, client service, and practical problem solving.

Core Skills

- Machine control diagnostics, technical support, after-sales support, field troubleshooting, customer training
- Sales support, product demonstrations, distributor support, solution presentation, client communication
- GIS and mapping: ArcGIS, ArcGIS Pro, QGIS, Global Mapper, Geographic Calculator, AutoCAD Civil 3D, REVIT, Covadis
- Surveying and geospatial tools: Topcon, Trimble, Leica, GNSS, total stations, levels, UAV drone, 3D scanner, bathymetric USV
- Data and engineering tools: Python, MATLAB, PostgreSQL, ETABS, ENVI, ERDAS, GPSeismic, TBC, TGO

Professional Experience

Topcon Current
Technical Support / Machine Control Diagnostics / Sales Support France

- Provide technical support for geospatial and machine control solutions, with a focus on diagnostics, configuration, and issue resolution.
- Support field users and internal teams with troubleshooting, operational guidance, and customer follow-up.
- Contribute to sales support through product explanations, demonstrations, and technical recommendations.
- Help ensure smooth deployment and adoption of Topcon solutions in real working environments.

CHC Navigation Feb 2025 – Jul 2025
Technical Sales Consultant France

- Delivered technical and commercial support for GNSS, engineering, 3D, and marine solutions.
- Conducted trainings, live/on-site demonstrations, problem-solving, and after-sales support.
- Expanded the distribution network and supported new sales channels.

SUEZ / PROMAN Interim Sep 2024 – Jan 2025
Cartographer Saint-Étienne, France

- Created, updated, and optimized GIS data for waste collection circuits.
- Supported route design tools and reporting workflows.

SERFIM TIC Jul 2024 – Aug 2024
GIS Analyst Lyon, France

- Built GIS datasets and platforms for telecom and FTTH network planning.
- Supported customer network routing and deployment studies.

Groupement Berkine Sonatrach & OXY May 2018 – Jan 2024
Cartographer / Draftsman Algeria

- Produced subsurface and structural maps with geophysicists and reservoir engineers.
- Managed GIS databases and digitized field infrastructure for oil and gas operations.

ENAGEO SONATRACH Jan 2015 – May 2018
3D Surveyor Algeria

- Performed topographic surveying for seismic activities, GNSS data processing, and QC.
- Produced reports and maps while supporting field crews and operational workflows.

ETRHB HADDAD
Land Surveyor

Jul 2014 – Nov 2014
Algeria

- Conducted topographic surveys and precision leveling for railway works.

Astaldi Inc.
Senior Land Surveyor

May 2014 – Jul 2014
Algeria

- Handled boundary surveys, construction staking, and initial site sketches.

Education

Master's Degree in Civil Engineering Structures and Roads
Abdelhamid Ibn Badis University, Mostaganem, Algeria

Bachelor's Degree in Civil Engineering Works
Abdelhamid Ibn Badis University, Mostaganem, Algeria

Senior Technician in Geodetic Science and Land Survey
Algerian Space Agency – National Centre of Space Techniques

Certifications

Advanced First Aid | Basic First Aid | IOSH Managing Safely (HSE) | IOSH Working Safely (HSE) | Driver's License (Cat-B)
